Flowering Plants
Fresh flowers

a brief overview...

We specialise in the skilful application of live planting to your workplace, enhancing the visual appearance of your building and creating an atmosphere that is welcoming and relaxed - an expertise that is straightforward and enjoyable..

Our in-depth knowledge of plant characteristics, and the tone that they will add to your work environment, ensures that our plants will match the vision you have for your building.

‘People working indoors with houseplants in their line of vision do tasks a staggering 12% faster and are able to concentrate better than people who don’t have plants in the room.’

the concept of plants ...and people

As we all know, there are many benefits to having plants in our immediate surroundings.

Putting it simply, plants purify the air by absorbing and transforming toxins, as well as maintaining recommended humidity levels through natural release of moisture. They are also proven to have positive psychological impact upon staff and visitors.

a day in our life...

Here's a few shots to show you the kind of things we do and see...

how we work the process

the survey
the quotation
the order
the planting
the installation
ongoing maintenance
